In the Court of Unnecessary Computation

Sitting in its capacity as a website.

A PETITION

CONCERNING EXCESSIVE INTEREST IN PREVIOUS VERSIONS OF MY CODE

Together with a Schedule of Facts,
Certain Feelings, and a Prayer for Symbolic Relief.

Presented by Levi Neuwirth

Keeper of the Premises; counsel to no one.

Docket U.C. / 2026 / 0001 • 19 October 2026

Satire • No legal force

The Argument.

A small server, having been much visited in its historical particulars, petitions for a little proportion. The quantities in the Schedule are real; the Court, its jurisdiction, its fees, and its magnificent opinion of itself are wholly invented. The only practical request is the courteous forwarding of a message to the relevant customer, where feasible.

Printed for the Petitioner,
and to be had at levineuwirth.org.

mmxxvi.
